## SUMMARY

Innovative Junior Front-End Developer with 2 years of experience in creating dynamic and user-friendly digital solutions. Developed a React-based Pokémon memorizer app, enhancing user interaction through state management, and contributed to a CV-building tool featuring real-time updates and downloadable PDFs, utilizing modular components for customization. Seeking a Junior Frontend Developer role to deliver engaging web experiences through HTML, CSS, JavaScript, and React expertise.

## EXPERIENCE

### Junior Front-End Developer

#### Personal Experience

November 2022 - November 2024

- **Portfolio Website:** Built a personal portfolio to showcase professional skills, including seamless navigation, a smooth single-page scroll, responsiveness, optimized images, and animations to bring projects to life.
- **Interactive Components and Games:** Developed a React-based Pokémon memorizer app to engage users, showcasing experience with state management and interactive UIs.
- **Real-World Applications:** Contributed to projects like interactive CV-building tool that enables users to create, preview, and download resumes. Used modular components for a customizable user interface, with features allowing real-time updates and downloadable PDFs.
- **JavaScript Classes & Testing:** Implemented classes in JavaScript for structured, modular code, utilizing testing practices for robust and error-free applications.

## PROJECTS

### Portfolio Website

[nikolozkereselidze.live/](https://nikolozkereselidze.live/) • November 2024 - November 2024

- **Responsive Design:** Ensured compatibility across various devices and screen sizes for optimal user experience.
- **Image Optimization:** Implemented strategies to reduce loading times without compromising image quality.
- **Smooth Navigation:** Designed a single-page layout with scrolling functionality and active state indicators for navigation links.
- **Direct CV Download:** Added a feature allowing users to download my resume with a single click, enhancing user convenience.
- **Project Showcase:** Displayed categorized projects with animations and hover effects, showcasing my creativity and technical abilities.
- **Contact Form:** Integrated a user-friendly contact form for easy communication, demonstrating my commitment to engagement.

### CV maker

[cvmosaic.netlify.app/](https://cvmosaic.netlify.app/) • October 2024 - October 2024

- **Real-Time Preview:** Enabled users to see their changes in real time, making it easier to create an appealing CV.
- **Export as PDF:** Integrated functionality for users to download their CVs in PDF.
- **Data Validation:** Implemented validation checks to ensure users provide complete and correct information.
- **User-Friendly Interface:** Created an intuitive layout that simplifies the process of building and editing a CV.

### Todo App

[nikolozkereselidze.github.io/ToDo-list/](https://nikolozkereselidze.github.io/ToDo-list/) • October 2024 - October 2024

- **Task Management:** Allowed users to add, edit, and delete tasks easily, promoting better organization.
- **Prioritization:** Enabled users to set task priorities to focus on what's most important.
- **Due Dates:** Integrated a feature for users to assign due dates to tasks, ensuring timely completion.
